

# Family Reading Time

Change in number of days per week family reads together

**NOTE:** Upon enrolling in 10BH, parents report family reading 1 ½ days a week. Four months later, parents report family reading 6 ½ days a week. Three main reasons account for this jump: 1. Parents observe their children read with a trained Role Model. 2. Children are given new books every month. 3. Parents are required to read 5 days a week. In essence, parents learn how valuable reading to their children is and build a culture around family reading.
